

Yvonne Wu, MD, MPH

Training: After graduating from Harvard Medical School, she completed her Child Neurology residency training at UCSF, and obtained a Masters in Epidemiology at Berkeley.

Department and Position: Associate Clinical Professor of Neurology and Pediatrics; Child Neurology Residency Program Director.

Career Profile: Dr. Wu's research program focuses on the epidemiology of newborn brain injury, and she is a leading authority on risk factors for perinatal stroke and cerebral palsy. Dr. Wu has headed up several large collaborative population-based epidemiologic studies, and is currently leading a clinical trial. She plays an active leadership role in the Society for Pediatric Research.

Personal Profile: She balances her research, clinical, administrative and teaching activities with spending time with her three daughters.
